www.linkedin.com/in/alvarezaryam

Software Engineer with 4+ years of experience across full-stack development, AI systems, project management, executive support, operational leadership, blockchain development, technical consulting, and product innovation. Experienced in building smart contracts, geospatial systems, scalable web applications, and automation tools. Currently expanding expertise in autonomous AI agents and workflow automation.

SKILLS

- **Programming Languages:** Python, JavaScript, Solidity, Ruby, C, HTML, CSS
- **Frameworks & Technologies:** React, Vue, Flask, RESTful APIs, Docker, Firebase, Supabase, LangGraph
- **Databases:** PostgreSQL, MySQL, SQLite, Cloud Firestore, Realtime Database, MongoDB
- **AI & Automation:** Playwright, Azure DevOps, RestAssured, OpenAI Codex, Prompt Engineering, ChatGPT, Anthropic Claude, xAI Grok, AI Agents, Workflow Automation
- **Developer Tools:** GitHub, Python Unittest, Vim, VS Code, Xcode, Agile Methodologies
- **Operating Systems:** Linux, macOS
- **Languages:** English (Fluent/Native), Spanish (Fluent/Native)

PROFESSIONAL EXPERIENCE

Sun West Mortgage Company — Guaynabo, Puerto Rico

AI Product Advisor | 2025

- Train brokers, loan officers, and realtors on Angel AI adoption and workflows.
- Support AI-driven underwriting, pricing, approvals, and document review processes.
- Gather product feedback, troubleshoot issues, and improve user adoption.

Raincoat — San Juan, Puerto Rico

AI Engineering Consultant (Contract) | 2025

- Built a custom H3 geospatial widget overlaying hexagons on Google Maps.
- Integrated mapping functionality into Maria AI using Python, JavaScript, Supabase, LangGraph, and Anthropic Claude.

Evertec — San Juan, Puerto Rico

IT Support Specialist | 2023–2024

- Provided technical troubleshooting, system maintenance, and end-user support.

Gallo King Coin, LLC — San Juan, Puerto Rico

Operations Lead / Executive Assistant /Blockchain Developer | 2022–2023

- Coordinated meetings, business travel, events, and cross-functional projects. Served as the intermediary between the CEO/Founder, our partners, the team, and the clients.
- Built a Solidity smart contract on the Ethereum blockchain for a play-to-earn AR/VR gaming platform featuring NFT ownership and transactions.
- Completed blockchain development training through Polytechnic University of Puerto Rico under Pedro Cruz for the proper creation of a smart contract one-on-one with the only Blockchain trained lawyer in Puerto Rico.
- Managed goals by priority, and managed a team of 16 employees while improving operational workflows and communication to efficiently support product launches.

TECHNICAL PROJECTS

Autonomous AI Agent Builder | 2026–Present

- Building autonomous AI agents using Google Antigravity, OpenAI Codex, Python, and automation workflows to identify software bounties and automate engineering tasks.

CoquiNav | Holberton Coding School | 2024

- Built a community discovery platform using Google Maps API, Firebase, Flask, Python, JavaScript, HTML, and CSS.

HBnB | Holberton Coding School | 2024

- Built a full-stack clone of Airbnb using Flask, MySQL, Docker, APIs, HTML, CSS, and JavaScript.

EDUCATION

Holberton Coding School - San Juan, Puerto Rico

February 2024 - Nov. 2024

- Foundations of Computer Science and Software Engineering

Universidad Interamericana - Cupey, Puerto Rico

August 2012 - Nov. 2014

- Bachelor's degree in Sociology & Psychology

Ladislao Martinez Otero High School - Vega Alta, Puerto Rico

Ene 2010 - Ene 2012

- Asistente Administrativa y Mercadeo

LEADERSHIP & COMMUNITY INVOLVEMENT

Organizer | Lightning Talks | Holberton Coding School & Engine 4 Foundation

- Organized recurring tech events for students and innovators to present projects and share technical insights.

Founding Member | Santurce Tech

- Invitation-only innovation community connecting entrepreneurs, technologists, and creatives in Puerto Rico.

Mentor | BrainyHacks Hackathon | Colegio de Ingenieros y Agrimensores de Puerto Rico

- Mentored students ages 10–16 in app development during a 48-hour hackathon.
